The press, the pulpit and the lecture-room are silent on the subject of diseases of the syrand organism. A faise deletacy conceass the knowledge for which thousands thirst. And how terrible are these diseases? Spermatorthese, shattering the entire Nervous System—Impairing the mind—and causing self-destruction. Syphilis, eating up the body by piece-meal—losing bone, muscle and nerve, by inches—being literally eaten up alive, and torturing the brain with agony. Charlatans, or incompetent physicians may cause to cure them, but in vain. The only hope and resort is in the humane and learned physician who understands their case.

Among these affections, none are worse than Spermatorrhose, or Seminal Weakness, and emissions. Dr. Woodbridge says, "That the loss of one ounce of seminal fluid by abuse, is equal to the loss of forty ounces of blood."

The worst form is when the seminal fluid by abuse, is equal to the loss of forty ounces of blood.

The worst form is when the seminal fluid passes off unperceived in the urine.

Empirics, ans characteriess nean, by working the feebleness of the body, not only extort large sums of money, but, in nearly every instance, bave complicated the disease, and rendered it more difficult to cure. I have never yet seen a case of Sexual Weakness or Impotency cured by any physician but myself. All the affections of the sexual organs have been deeply studied by me for many years. I have made a discovery in the treatment of all syphilitie and virulent diseases which promines to overthrow all former presenceived notions and theories on the subject. I employ entirely new remedies, and never use nauseous cogains, embels, turpentine and mercury in every case i guarantee a perfect cure.
